

Upcoming HIV-related Conferences and Meetings

Revised: 8 Dec 2011

Please Note

All abstracts falling within the FACES program evaluation protocol require official approval from the program and the CDC prior to submission to a conference; please follow the FACES concept sheet process if you are interested in preparing an abstract for submission to a future conference or meeting. It is also important to note that authors will need to secure full scholarships in order to attend international conferences. Contact Lilian Omondi (lomondi@kemri-ucsf.org) for more information.
